

WOOD BLINDS MEASURE INSTRUCTIONS

ORDER IN 4 EASY STEPS

1. Select Mount Type:

Inside:

- Mounted within the window frame
- Provides a clean, built-in look
- Great way to leave attractive woodwork exposed
- If window frame isn't deep enough, please select outside mount

Outside:

- Great option when there is not enough depth for an inside mount
- Mounted to the wall, ceiling or molding surface surrounding the window
- Often used to make the window appear larger or to hide a less attractive window or door
- No minimum depth requirement

2. Measure:

Inside:

STEP 1: Measure the inside width at 3 locations – the top, middle and bottom. Record the smallest of the 3 measurements. This is your ordering width. We will make the necessary deductions (approx. 1/2").

STEP 2: Measure the height at 3 locations – the left side, middle and right side. Record the largest of the 3 measurements. This is your ordering length.

Outside:

STEP 1: Measure the width of the area you wish to cover. If space allows we recommend adding 2–3" (1–1 1/2" each side) to this measurement to help eliminate light seepage. This is your ordering width and will be the overall measurement of the blind (**valance will be approx. 1 1/2" wider than blind due to returns**).

STEP 2: Measure the height of the area you wish to cover. This is your ordering length.

3. Select Tilt Type:

Wand:

- Operates slats with a simple twisting motion
- No charge

Cord:

- Control the slats by gently pulling on cords
- No charge

*Not all wood blind styles offer both tilt types. See website for details.

4. Select Control and Tilt Position:

A) Tilt Left / Control Right

B) Tilt Right / Control Left

C) Both Tilt and Control on Right

D) Both Tilt and Control on Left

*Not all wood blind styles offer all control/tilt positions. See website for details.

Mounting Requirements:

Product	Minimum Depth to Install	Minimum Depth for Flush Mount	Minimum Space for Outside Mount
Wood Blinds			
1" wood	1/2"	2 1/4"	1 3/8"
2" wood	3/4"	2 7/8"	2 3/8"
2" Elite wood	3/4"	2 7/8"	2 3/8"
2" Faux wood	3/4"	3 1/8"	2 3/8"

+ Optional Feature:

2 Blinds on 1 Headrail:

- 2 blinds hang from the same headrail and operate independently
- Total width you provide will be divided equally making both blinds equal size (contact us for special requests)
- Small gap (approximately 1/4") will exist between the 2 blinds
- Surcharge applies
- Controls will be positioned on the outside of each blind
